Dissingia K. Hansen et al.

[Hansen et al. \(2019\)](#) introduced *Dissingia* within the *Helvellaceae* to accommodate four new combinations (*viz.*, *D. confusa*, *D. crassitunicata*, *D. leucomelaena* and *D. oblongispora*). *Dissingia* is characterized by asci with simple septa at the bases ([Hansen et al. 2019](#)) (M. Erdoğan).
