

Outlineoffungi.org - Note 54, [Aulographales](#)

[Aulographales](#) Crous et al.

This order, which was introduced in light of the data obtained as a result of the rearrangement of [Aulographum](#) and *Rhizodiscina*, includes two families as [Aulographaceae](#) and [Rhizodiscinaceae](#). Members of this order are saprobic on leaves and wood (Haridas et al. 2020) (F. Selcuk).
